### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 4-5, 7, 9-21, 42 and 43 are rejected under 35 U.S.C. 102(e) as being anticipated by Cales (US 2003/0135421).

Claims 1, 42 and 43, Cales teaches:

A method of providing a money-back guarantee for a transaction in a network-based marketplace, the method including:

determining that a seller is eligible to offer a buyer the money-back guarantee the determining done at least in part through use of one or more processors and

Art Unit: 3688

*Subsequent to the determining that the seller is eligible to offer the buyer the money back guarantee* providing the seller an option to offer the buyer the money-back guarantee (see paragraphs 11, 14)

providing a guarantee interface for the buyer to activate the money-back guarantee associated with the eligible transaction (see paragraph 30)

receiving, via a network interface device, a reimbursement request against the money-back guarantee for the eligible transaction (see paragraph 38-39);

responsive to receiving the reimbursement request, verifying the reimbursement request is eligible for the money-back guarantee (see paragraph 38-39); and

electronically reimbursing the buyer a predetermined amount associated with the eligible transaction and the money-back guarantee (see paragraph 39).

Claim 4, Cales teaches:

providing a seller interface for the seller to choose whether the money-back guarantee is offered on the eligible transaction (see paragraph 30) .

Claim 5, Cales teaches:

verifying that the eligible transaction is eligible for the money-back guarantee (see paragraph 38-39).

Claim 7, Cales teaches:

wherein the verifying includes determining that a transaction occurred within a predetermined timeframe (see paragraph 39).

Claim 9, Cales teaches:

collecting a fee from the buyer for activating the money-back guarantee, wherein the fee is in addition to the associated transaction cost (see paragraph 37).

Claim 10, Cales teaches:

calculating the fee base upon a predetermined percentage of the transaction amount plus a flat fee (see paragraph 37).

Claim 11, Cales teaches:

receiving payment from the buyer for the money-back guarantee and the associated transaction cost and responsive to receiving the payment, generating a transaction identification number (see paragraph 37).

Claim 12, Cales teaches:

providing a reimbursement request interface for the buyer to submit the reimbursement request against the money- back guarantee associated with the eligible transaction (see paragraph 37-39).

Claim 13, Cales teaches:

wherein the reimbursement request includes a transaction number, date of transaction, reason for the request, and type of item associated with the request (see paragraphs 32-39).

Claim 14, Cales teaches:

wherein the verifying of the reimbursement request includes verifying the eligibility of the transaction and seller for the money-back guarantee and verifying the buyer paid for the money-back guarantee (see paragraph 38-39).

Claim 15, Cales teaches:

reimbursing the buyer if an item associated with the eligible transaction is alleged to be defective (see paragraph 11).

Claim 16, Cales teaches:

reimbursing the buyer if an item associated with the eligible transaction is not received by the buyer (see paragraph 11).

Claim 17, Cales teaches:

reimbursing the buyer if an item associated with the eligible transaction is unwanted (see paragraph 11).

Claim 18, Cales teaches:

wherein the eligible transaction is an online transaction using the Internet (see paragraph 24).

Claim 19, Cales teaches:

wherein the online transaction is associated with an online auction (see figure 1b item 107).

Claim 20, Cales teaches:

wherein the online transaction is a fixed price transaction (see paragraph 37).

Claim 21, Cales teaches:

wherein the network-based marketplace supports transactions between a plurality of sellers and a plurality of buyers (see paragraph 30).

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3688

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Cales (US 2003/0135421) in view of Junger (US 2004/0172260).

Claim 6, Junger teaches:

wherein the verifying includes determining that a transaction amount associated with the eligible transaction does not exceed a predetermined threshold (see paragraph 183). Therefore, it would have been obvious to a person of ordinary skill in the art at the time the application was made, to know that that Cales would modify his invention to include a limit in a transaction amount that would be eligible for a return, as taught by Junger in order to put a cap in the amount of money the Cales' protection service would need to return to a buyer or to a seller.

### **Response to Arguments**

Art Unit: 3688
